Features

- The Teaching Assistant Management System (TAMS) aims to create a **fair** and **efficient** TA matching process.

- Provide 3 different **views** for the Professor/Program director, Students and Admin assistant tailored to their needs.

- Reduce the **manual work** and **errors** involved with online forms, messaging systems and management of TA postings.

- Lots of **interactivity** to maintain engagement and reduce miscommunications or misunderstandings.

Scope

- Job **posting** creation
- Job **application**
- Candidate **list**
- TA **matching** to postings
- **Contract** submission
- TA Evaluation form
- A **notification** system to notify students, professors, admin assistants and program directors.

Goals

Professor and Program Director

- **Update** job posting description
- See **candidates**
- Accept, reject and delete candidates
- Ask for **more** candidates
- **Message** candidates

Student

- See all available **positions**
- **Apply** for positions
- Receive **notifications** and messages regarding their applications

Admin Assistant

- Manage **lifecycle** of posting (publish, update and deletion)
- **Assign** candidates to postings
